WORK EXPERIENCE

Freelance Full-Stack Developer

February 2021 - Present

PROJECT SELECTION

Modern E-commerce Platform

- Developed a full-stack fashion e-commerce platform using **Next.js 15.2**, **React 19.0**, and **Neon Postgres**.
- Implemented secure authentication with **Auth.js**, supporting **social login**, **email verification**, and **role-based access control**.
- Designed a sleek, responsive UI with **Tailwind CSS v4** and **ShadCN**, offering seamless dark and light mode.
- Integrated **Stripe** for secure payment processing, including subscriptions and refunds.
- Optimized performance with **Next.js Server Actions**, ensuring fast load times and SEO best practices.
- Leveraged **Drizzle ORM** for efficient database management and query optimization.
- Enhanced user experience with **Motion** animations and intuitive navigation.
- Built scalable **API architecture** for efficient data handling and seamless user interactions.
- Currently using and refining the platform for an optimized shopping experience.

SKILLS

Typescript, React, Redux, Next.js, Node.js, Postgresql, REST API, Animations, ORMs, Auth.js, Git, Docker, SCSS, Tailwind, Figma.
